

**TISAX** stands for "Trusted Information Security Assessment Exchange" and is a registered trademark of the ENX Association. The ENX Association supports with TISAX on behalf of VDA the common acceptance of information security assessments in the automotive industry.

For the Vogt Umformtechnik GmbH confidentiality, availability and integrity of information have great value. We are therefore pleased to now be able to offer a verifiable industry standard with the TISAX label.

We have taken extensive measures on protection of sensitive and confidential information. Therefore, we follow the question catalogue of information security of the German Association of the Automotive Industry (VDA ISA).

The assessment was conducted for our TISAX Scope ID SH4MWT under the Assessment ID AX7P99-1 by the TISAX audit provider operational services GmbH & Co. KG. The result is exclusively retrievable over the ENX Portal:
